ISLAMICFAMILY'S 5 YEAR STRATEGIC PLAN

OUR VISION

A thriving community where fewer people are in crisis & more people are in leadership.

Fewer in crisis

the number of people dependent on our food bank

More in leadership

community equipped and building solutions

OUR MISSION

To **uplift** individuals, families, & community through impactful services.

OUR VALUES

The way we carry the work.

We are responsive & compassionate

We meet people where they are, with dignity & mercy, & we move when it matters most.

We are people-centred & growth minded

We build with the community, not merely for it, & we keep learning as we serve.

We are accountable, transparent, & serve justly

We hold what is entrusted to us as an amana, & we answer for it openly.

OUR GUIDING QUESTION

How can we support the whole person to flourish in our community?

The whole person includes mental, emotional, physical, familial, social, economic, and spiritual well-being, honouring the dignity, strengths, and hopes of every person.

Flourishing means people & families belong, have stability, opportunity, and support to realize their potential, lead with confidence, and contribute positively to communities.

Our community includes the many geographical, cultural, and faith-based networks that shape identity, nurture, and create opportunities for people to care for one another.

OUR GOALS · THREE TRACKS

Three tracks, one trajectory.

Every goal moves the community forward along the same line: from crisis toward leadership, from need toward capacity, from services toward systems that renew themselves.

01 Nurture People & Community

1.1 Support the needs of people & community

1.3 Strengthen the community ecosystem

1.2 Invest in our team

1.4 Advance reconciliation

02 Meaningful Impact

2.1 Help people where it's needed

2.3 Deliver & communicate impact better

2.2 Advance people-first data

03 Regenerative Growth

3.1 Strengthen financial foundations

3.3 Turn community priorities into action

3.2 Increase operational excellence

Regenerative growth reinvests in people, so track 03 returns us to track 01. The trajectory is also a cycle.

Fewer in crisis. More in leadership.

We get there together.
